

## CROSSTABS

### *Public Policy Topline*

#### Monthly Harvard-Harris Poll: October 2017

This survey was conducted online within the United States between October 14-18, 2017 among 2,159 registered voters by The Harris Poll. The results reflect a nationally representative sample. Results were weighted for age within gender, region, race/ethnicity, marital status, household size, income, employment, political party, political affiliation, and education where necessary to align them with their actual proportions in the population. Propensity score weighting was also used to adjust for respondents' propensity to be online.
