Monthly Harvard-Harris Poll: May 2019

This survey was conducted online within the United States from May 29-30, 2019 among 1,295 registered voters by The Harris Poll.

The results reflect a nationally representative sample. Results were weighted for age within gender, region, race/ethnicity, marital status, household size, income, employment, political party, political ideology, and education where necessary to align them with their actual proportions in the population. Propensity score weighting was also used to adjust for respondents' propensity to be online.

INFR0409 Some people say that climate change is now an urgent problem requiring massive funding, taxation, and retooling of the American economy including eliminating the use of oil, coal, natural gas and all fossil fuels. Others say that while it may be a problem, we should go slow in passing any taxes or huge spending programs because over time, technology may offer better solutions to the problem at lower cost. Which is closest to your view, even if neither is exactly perfect?

INFR0501A President Trump has stated his support for a $2 trillion bipartisan infrastructure deal. However, he has said that such a package cannot pass while Congressional Democrats continue to subpoena and investigate his administration, and that these investigations must to end before moving forward with infrastructure reform.

In your view it is most important to continue to investigate President Trump for any possible misconduct or should end these investigations to move forward with bipartisan policy initiatives including infrastructure reforms?
