## **Monthly Harvard-Harris Poll: May 2020**

This survey was conducted online within the United States from May 13-14, 2020 among 1,854 registered voters by The Harris Poll.

The results reflect a nationally representative sample. Results were weighted for age within gender, region, race/ethnicity, marital status, household size, income, employment, political party, political ideology, and education where necessary to align them with their actual proportions in the population. Propensity score weighting was also used to adjust for respondents' propensity to be online.

MF052009 Transcripts of Obama officials testimony from years ago were released this week and all of the officials said they had no direct evidence of any Trump-Russia collusion. In your view, was Representative Adam Schiff, the chairman of the House intelligence committee, telling the truth when he said he had more than circumstantial evidence of Trump-Russia collusion or was he exaggerating that claim for political purposes?
