The results reflect a nationally representative sample. Results were weighted for age within gender, region, race/ethnicity, marital status, household size, income, employment, political party, political ideology, and education where necessary to align them with their actual proportions in the population. Propensity score weighting was also used to adjust for respondents' propensity to be online.

INV0902 Recent news reports say that Rod Rosenstein right after James Comey was fired as director of the FBI suggested secretly recording President Trump and using the 25th amendment to remove President Trump from office. Does this disqualify Rosenstein from overseeing the Special Counsel's investigation, or is it not relevant?
