## **Monthly Harvard-Harris Poll: June 2017**

This survey was conducted online within the United States between June 19-21, 2017 among 2,258 registered voters by The Harris Poll.

The results reflect a nationally representative sample. Results were weighted for age within gender, region, race/ethnicity, marital status, household size, income, employment, and education where necessary to align them with their actual proportions in the population. Propensity score weighting was also used to adjust for respondents' propensity to be online.
