RBG23 Senate Majority Leader Mitch McConnell blocked the last Supreme Court nominee put forward by President Obama arguing that we should not be appointing Supreme Court justices in an election year and allow the next President and Senate to pick the new nominee. If McConnell allows the Senate to vote on a new nominee 40 days before the election this time around will that make you more likely to vote for republicans, less likely to vote for republicans, or will it have no effect on your vote this election?
