September 2018 FLASH POLL -- Harvard CAPS / Harris Poll

The flash poll was conducted online within the United States from September 29-30, 2018 among 1,330 registered voters by The Harris Poll. Results were weighted for age within gender, region, race/ethnicity, marital status, household size, income, employment, education, political party, and political ideology where necessary to align them with their actual proportions in the population. Propensity score weighting was also used to adjust for respondents' propensity to be online.
