Monthly Harvard CAPS-Harris Poll: March 2023

This survey was conducted online within the United States from March 22-23, 2023 among 2,905 registered voters by The Harris Poll.

The results reflect a nationally representative sample. Results were weighted for age within gender, region, race/ethnicity, marital status, household size, income, employment, political party, political ideology, and education where necessary to align them with their actual proportions in the population. Propensity score weighting was also used to adjust for respondents' propensity to be online.

C17 The U.S. government has committed more than \$27.4 billion in security assistance since the start of the 2022 war, or about 1.5 percent of the total defense budget of \$1.9 trillion. Do you think this is a justified investment in the protection of an ally and its people or an unjustified expenditure in a foreign war?

ENV3 Since the derailment, train owner Norfolk Southern has committed \$3 Million in funds to assist replacement of fire equipment used in response to the wreck and to support the city, its families and businesses. Do you think Norfolk Southern has committed too much, not enough, or just the right amount of money to make up for this derailment?

ENV3B Preliminary findings on the train derailment that occurred in Ohio last month found that there was a mechanical problem on one of the railcar's trucks which may have started the derailment process. Do you think Norfolk Southern has committed too much, too little, or just the right amount of money to make up for this derailment?

ENV4 In addition to the fires and damage caused by the train derailment, about 20 of the train cars were carrying hazardous materials that resulted in a spill that may have caused toxic chemicals to enter the air, water, and soil. Do you think Norfolk Southern has committed too much, too little, or just the right amount of money to make up for this derailment.

QWHM7A In an effort to provide further pay transparency, some states have recently passed laws forcing companies to post the available salary range alongside their job posting. About 1 in 4 workers now live in a place where employers are required to share those pay ranges by law. Which of these statements comes closest to your opinion on the topic?

More states should pass pay transparency laws. All companies SHOULD have to post the pay ranges with each job as this will help close the wage gap and allow for better salary negotiations.	2242 77%	1011 73%	1210 81%	558 73%	540 78%	618 77%	525 82%	1522 78%	286 76%	273 72%	37 88%	762 73%	890 83%	534 76%	580 83%	896 81%	766 69%	789 80%	1453 76%	799 82%	982 76%	462 72%	990 79%	1211 77%
Less states should pass pay transparency laws. All companies SHOULD NOT have to post the pay ranges with each job.
