

HARVARD CAPS HARRIS POLL

Field Dates: November 4-6, 2025

SURVEY METHOD

This survey was conducted online within the United States on **November 4-6, 2025**, among **2,000 registered voters** by The Harris Poll and HarrisX.

Respondents for this poll are recruited through opt-in, web-panel recruitment sampling. Recruitment occurs through a broad variety of professional, validated respondent panels to expand the sampling frame as wide as possible and minimize the impact of any given panel on recruiting methods.

Results are weighted for age within gender, region, race/ethnicity, marital status, household size, income, employment, education, political party, and political ideology where necessary to align them with their actual proportions in the population. Propensity score weighting was also used to adjust for respondents' propensity to be online. The margin of error for the total sample is +/- 1.99 pts on a 95% confidence level.

The poll was supervised by pollsters:

Mark Penn (Chairman, The Harris Poll)

Dritan Nesho (CEO, HarrisX)

Stephen Ansolabehere (Professor and CAPS Director Emeritus, Harvard University)

Maduro and his top people have all been indicted by the United States for narco-terrorism and other charges, and there is a \$50 million reward for his capture by the U.S. government. Maduro lost the last election and he has tanked the economy, but kept in power anyway and as a result millions of Venezuelans have entered the US.

Given this situation on the ground, should the president of Venezuela Nicolas Maduro be removed from office or not?
