VZ0104 Some people say it was right for the Trump administration to remove Maduro from office and bring him to justice because he spread drugs into the U.S., created massive immigration problems as 9 million Venezuelans fled the country, released drugs and criminals into the U.S., stole the last election, and was working with Cuba, Russia, and Iran against the U.S.

Others say we had no business in removing him and that it violated both the U.S. Constitution and international law. Which is closer to your view?
